### Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

### Library of Congress Cataloging-in-Publication Data

A catalog record for this book is available from the Library of Congress

### British Library Cataloguing-in-Publication Data

A catalogue record for this book is available from the British Library

ISBN: 978-0-12-811517-6

# Contents

<i>List of Contributors</i> .....	<i>xiii</i>
<i>Foreword</i> .....	<i>xvii</i>
<i>Series Preface</i> .....	<i>xix</i>
<i>Preface for Volume 8: Therapeutic Foods</i> .....	<i>xxiii</i>
<b>Section I: State of the Art and Applications</b> .....	<b>1</b>
<b>Chapter 1: Nutraceuticals: Myths Versus Realities</b> .....	<b>3</b>
<i>Mian K. Sharif, Rabia Khalid</i>	
1 Nutraceuticals .....	3
1.1 Preamble.....	3
1.2 Definitions .....	4
1.3 Classification .....	5
1.4 Global Market .....	6
1.5 Commonly Used Nutraceuticals .....	6
1.6 Mechanism of Action .....	6
2 Natural, Nutraceuticals, and Pharmaceuticals .....	6
3 Nutraceuticals: Myths Versus Realities .....	8
3.1 Role of Nutraceuticals in the Prevention and Treatment of Health Disorders.....	9
3.2 Supplements Can Correct Flaws in Diet.....	9
3.3 All the Supplements Labeled “All Natural” are all Good .....	10
3.4 When a Nutrient is Introduced in Market, Stock it up .....	11
3.5 Nutraceuticals are as Good for Health as Diet.....	12
3.6 In Vitro and In Vivo Studies are Enough to Believe Health Benefits of Certain Nutrients.....	12
4 Health Claims of Nutraceuticals.....	14
5 Labeling Requirements .....	15
5.1 Nutritional Labeling.....	15
5.2 Labeling for Quality.....	15
6 Safety and Quality Issues.....	16
6.1 Analytical .....	16
6.2 Bioavailability .....	16
6.3 Contaminants and Adulterants .....	17
6.4 Dosage.....	17

7	Global Regulations and Compliance .....	18
7.1	USA.....	18
7.2	European Union .....	18
7.3	China .....	19
7.4	Japan.....	19
7.5	India and Pakistan .....	19
8	Role of Nutraceuticals in Human Health.....	19
9	Conclusions .....	20
	References.....	20
<b>Chapter 2: The Impact of Functional Food and Nutraceuticals in Health .....</b>		<b>23</b>
<i>Shubham Singh, Meerza A. Razak, Supraj R. Sangam, Buddolla Viswanath, Pathan S. Begum, Senthilkumar Rajagopal</i>		
1	Introduction .....	23
1.1	History of Nutraceuticals .....	23
1.2	Components of Nutraceuticals .....	24
1.3	Classification of Nutraceuticals .....	24
2	Disease Patterns Arising From a 21st-Century Lifestyle.....	24
3	Food as Medicine.....	25
3.1	Dietary Amino Acids and Their Effect on Brain Health .....	25
3.2	The Role of Amino Acid in Brain Health .....	27
3.3	Amino Acid in Synthesis of Neurotransmitters.....	30
3.4	Role of Fruits in Boosting Memory .....	30
3.5	Fruits for Treating and Preventing Brain Diseases .....	30
3.6	Grape Juice for Healthier Brain .....	31
3.7	Therapeutic Application of Blueberries .....	31
3.8	Black Seed: A Potential Nutraceutical for Healthier Brain.....	32
3.9	Health Benefits of Black Seed .....	32
3.10	Role of Black Seed Against Brain Inflammation .....	33
3.11	Black Seed in Treatment of Alzheimer’s Disease .....	33
3.12	Black Seed in Epilepsy Treatment .....	34
3.13	Black Seed as Antitumor Agent .....	34
3.14	<i>Momordica charantia</i> (Karela) in Treatment of Diabetes.....	35
4	Challenges With Natural Nutrient Supplement .....	38
5	Allopathic Drugs and Challenges .....	39
6	Nutrients as Adjunct for Chemical Drugs.....	39
7	Nutrient Adjuncts for Cancer Therapy.....	39
7.1	Epigallocatechin Gallate .....	40
7.2	Selenium.....	40
7.3	Arginine.....	40
8	Advancement in Food Processing for Nutrients .....	40
9	Conclusions .....	41
	References.....	41

<b>Section II: Nutrition .....</b>	<b>49</b>
<b>Chapter 3: Lipids as Nutraceuticals: A Shift in Paradigm .....</b>	<b>51</b>
<i>Sandeep Kumar, Bhoomika Sharma, Priyanka Bhadwal, Prerna Sharma, Navneet Agnihotri</i>	
1 Introduction .....	51
2 Classification of Lipids .....	51
2.1 Simple Lipids .....	51
2.2 Complex Lipids .....	53
2.3 Derived Lipids .....	56
3 Biological Functions of Lipids .....	60
3.1 Energy .....	60
3.2 Role in Membrane .....	61
3.3 Role of Eicosanoids .....	62
3.4 Role in Signaling Pathways .....	63
4 Lipid Transport .....	64
5 Lipids in Pathogenesis of Diseases .....	65
5.1 Cancer .....	65
5.2 Obesity .....	71
5.3 Role of Lipids in Nervous System .....	73
5.4 Role of Lipids in Cardiovascular Diseases .....	78
6 Lipids as Nutraceuticals .....	82
6.1 <i>n</i> -3 PUFAs .....	82
6.2 MUFAs .....	83
6.3 Phytosterols .....	84
6.4 Isoprenoids .....	87
6.5 Conjugated Linolenic Acid .....	87
References .....	89
<b>Chapter 4: Plant Nutrition and Agronomic Management to Obtain Crops With Better Nutritional and Nutraceutical Quality .....</b>	<b>99</b>
<i>Marcelino Cabrera-De la Fuente, Susana González-Morales, Antonio Juárez-Maldonado, Paola Leija-Martínez, Adalberto Benavides-Mendoza</i>	
1 Introduction .....	99
2 The Nutritional and Nutraceutical Quality of Crops .....	100
3 Nutraceutical Value of Plant Crops and Human Health .....	105
3.1 Diseases Related to Oxidative Stress .....	107
3.2 Cardiovascular Diseases .....	108
3.3 Carcinogenesis .....	108
3.4 Neurodegenerative Diseases .....	109
4 Regulation of the Synthesis and Accumulation of Compounds That Enhance the Nutraceutical Quality of Plant Foods .....	110
5 Agricultural Practices for Improving the Nutraceutical Quality of Crops .....	116
6 Results of Applying Agricultural Practices on Nutraceutical Quality .....	120
6.1 Preharvest Environmental Factors .....	120

6.2 Postharvest Environmental Factors .....	123
6.3 Summary of Environmental Factors, Technology, and Agricultural Practices That Modify the Nutraceutical Quality of Crops .....	124
7 Conclusions .....	129
References.....	129
<b>Chapter 5: Mushrooms as Sources of Therapeutic Foods .....</b>	<b>141</b>
<i>Marina Soković, Jasmina Glamočlija, Ana Ćirić, Jovana Petrović, Dejan Stojković</i>	
1 Introduction to Mushrooms as Therapeutic Foods .....	141
2 Cultivation Technologies for Edible and Medicinal Mushrooms .....	142
3 Mushrooms Uses in Traditional Medicine Versus Scientific Confirmation for the Uses .....	144
4 <i>Agaricus</i> spp. ....	145
5 <i>Antrodia</i> spp.....	147
6 <i>Boletus</i> spp.....	148
7 <i>Cordyceps</i> spp.....	149
8 <i>Ganoderma</i> spp.....	151
9 <i>Hericium</i> spp.....	154
10 <i>Laetiporus</i> spp. ....	156
11 <i>Lentinula</i> spp. ....	158
12 <i>Phellinus</i> spp.....	161
13 <i>Trametes</i> spp. ....	164
14 Miscellaneous Mushrooms .....	166
15 Conclusions .....	169
References.....	170
<b>Chapter 6: Oregano: A Feed Additive With Functional Properties .....</b>	<b>179</b>
<i>Ilias Giannenas, Eleftherios Bonos, Efterpi Christaki, Panagiota Florou-Paneri</i>	
1 Introduction .....	179
2 Antimicrobial Growth Promoters .....	180
3 Oregano Essential Oil .....	181
4 Modes of Action of Oregano .....	183
4.1 Antimicrobial Activity of Oregano.....	183
4.2 Antiparasitic Activity of Oregano .....	186
4.3 Antioxidant Activity of Oregano.....	189
4.4 Analgesic, Antiaggregant, Antiinflammatory, and Antispasmodic Activity of Oregano.....	190
4.5 Immunostimulating, Antimutagenic, and Protective Effects of Oregano .....	191
5 Use of Oregano in Animal Nutrition .....	192
5.1 Effects of Dietary Oregano in Poultry .....	193
5.2 Effects of Dietary Oregano in Pigs .....	196
5.3 Effects of Dietary Oregano in Ruminants.....	199
5.4 Effects of Dietary Oregano in Rabbits .....	200
6 Conclusions .....	201
References.....	202

<b>Chapter 7: Potential of Chokeberry (<i>Aronia Melanocarpa L.</i>) as a Therapeutic Food .....</b>	<b>209</b>
<i>Nada Čujić, Nevena Kardum, Katarina Šavikin, Gordana Zdunić, Teodora Janković, Nebojša Menković</i>	
1 Introduction .....	209
2 Chokeberry ( <i>Aronia melanocarpa</i> ).....	210
2.1 Polyphenols as Active Compounds of Chokeberry .....	210
2.2 Antioxidant Potential of Chokeberry .....	212
2.3 Potential Health Effects of Chokeberry .....	216
3 Bioavailability and Metabolism of Polyphenols Present in Chokeberry .....	224
4 Chokeberry Products-Extracts .....	225
5 New Technologies in Chokeberry Products.....	228
6 Conclusions .....	230
References.....	231
<b>Chapter 8: Beta Glucan as Therapeutic Food .....</b>	<b>239</b>
<i>Vetvicka Vaclav, Sima Petr, Vannucci Luca</i>	
1 History .....	239
2 New Discoveries .....	240
3 Nutrition and Immunity .....	241
4 Why the Immune Responses are Dependent on Nutrition.....	244
5 Beta Glucans .....	245
6 Transport Through the Gastrointestinal Tract.....	246
7 Beta Glucan and Immunity .....	246
8 Beta Glucan as Food Additive .....	247
9 Conclusions .....	252
References.....	252
<b>Chapter 9: Nutritionally Enhanced Foods Incorporating Chia Seed .....</b>	<b>257</b>
<i>J. Rodolfo Rendón-Villalobos, Amanda Ortíz-Sánchez, Emmanuel Flores-Huicochea</i>	
1 Introduction .....	257
2 Therapeutic Foods.....	259
3 History and Ethnobotanical Aspects of Chia .....	263
3.1 Chia Seed as Valuable Food .....	265
3.2 Health Benefits and Nutraceuticals of Chia .....	268
4 Some Reports on Use of Chia Seed as Food Ingredient.....	272
5 Conclusions .....	276
References.....	277

**Section III: Medical impact.....283**

**Chapter 10: Perspective Therapeutic Effects of Immunomodulating  
Acidic Herbal Heteropolysaccharides and Their Complexes  
in Functional and Dietary Nutrition .....285**

*Yordan N. Georgiev, Manol H. Ognyanov, Petko N. Denev,  
Maria G. Kratchanova*

1 Introduction .....	286
1.1 Trends in Herbal Medicine and Nutrition .....	286
1.2 Importance of Bioactive Acidic Heteropolysaccharides .....	286
2 Chemical Diversity of Herbal Acidic Heteropolysaccharides and Relation to Immunogenicity .....	288
3 Perspective Therapeutic Effects of Acidic Heteropolysaccharides.....	293
3.1 Modulation of Innate and Adaptive Immunity .....	293
3.2 Antitumor Activity Via Immune System Stimulation .....	301
3.3 Gastroprotective Effects Via Immune System Modulation.....	304
3.4 Perspective Therapeutic Effects of Polysaccharide Complexes.....	311
4 Preparation of Immunomodulating Acidic Heteropolysaccharides and Their Complexes .....	316
5 Concluding Remarks .....	317
References.....	318

**Chapter 11: Soybeans, Flaxseeds, and Fish Oil in the Treatment  
of Renal Disease.....329**

*Danijela Ristić-Medić, Marija Takić, Slavica Radjen*

1 Introduction .....	329
2 Sources, Dietary, and Supplement Intake .....	332
2.1 Soybean-Dietary Sources of Soy Protein, Isoflavones, Fatty Acids, and Fiber .....	332
2.2 Flaxseed-Dietary Sources of ALA, Lignans, Fiber, and Flaxseed Protein .....	333
2.3 Dietary Sources and Recommendation of <i>n</i> – 3 PUFAs (ALA, EPA, and DHA) .....	334
3 Clinical Association of Soybeans, Flaxseed, and Fish Oil Treatments in CKD ....	335
3.1 Effect on Renal Function .....	336
3.2 Fish Oil and IgA Nephropathy.....	339
3.3 Fatty Acid Status in Patients With CKD .....	340
3.4 Soybean, Flaxseed, and Fish Oil Effects on Dyslipidemia .....	342
3.5 Soybean, Flaxseed, and Fish Oil Effects on Inflammation .....	348
3.6 Soybean, Flaxseed, and Fish Oil Effects on Oxidation.....	350
3.7 Soybean, Flaxseed, and Fish Oil Effects on Blood Pressure .....	352
3.8 The Effect of <i>n</i> – 3 PUFAs Supplementation on Thrombosis and Vascular Access Patency.....	354
3.9 Soybean, Flaxseed, and Fish Oil Effects on Cardiovascular Events and Mortality .....	354

3.10 Soybeans, Flaxseed, and $n - 3$ PUFAs in the Prevention of Polycystic Kidney Disease Progression.....	357
4 Conclusions .....	359
References.....	360
<b>Chapter 12: Maca, A Nutraceutical From the Andean Highlands .....</b>	<b>373</b>
<i>Gustavo F. Gonzales, Dulce E. Alarcón-Yaquetto</i>	
1 Introduction .....	373
2 A Crop Native From the Peruvian Highlands .....	374
3 The Tradition Behind Maca .....	375
4 The Science Behind Maca .....	375
4.1 Phenotypes of Maca and Differential Properties .....	375
4.2 Biological Properties.....	377
5 The Future of Maca .....	385
5.1 Biotechnology in the Study of Maca.....	385
5.2 Mixture of Plants.....	386
5.3 Maca and the Endocannabinoid System .....	386
6 Concluding Remarks .....	387
References.....	388
<b>Chapter 13: Phytochemical and Pharmacological Properties of Secondary Metabolites in Berries.....</b>	<b>397</b>
<i>Sandra N. Jimenez-Garcia, Moises A. Vazquez-Cruz, Lina Garcia-Mier, Luis M. Contreras-Medina, Ramon G. Guevara-González, Juan F. Garcia-Trejo, Ana A. Feregrino-Perez</i>	
1 Introduction .....	397
2 Taxonomic Problems .....	398
3 Berry Fruits, Bioactives, and Bioavailability.....	399
4 Metabolic Syndrome.....	400
4.1 Traditional Uses of Medicinal Berry Plants Against Cancer .....	400
4.2 In Vitro Validation of Berries Against Different Types of Cancer Cell Lines .....	401
5 Clinical Efficacy and Mechanism of Action Berries .....	401
6 Cancer and Oxidative Species .....	408
6.1 Antioxidants Compounds From Natural Origin.....	409
7 Types of Cancer With Potential to be Treated by Medicinal Plants .....	414
7.1 Breast Cancer .....	414
7.2 Lung Cancer .....	415
7.3 Digestive System Cancer .....	416
7.4 Skin Cancer .....	417
7.5 Other Cancer Types.....	418
8 Epidemiological Studies of Cancer .....	419
9 Conclusions .....	420
References.....	420

<b>Section IV: Cancer Therapy</b> .....	<b>429</b>
<b>Chapter 14: Functional Foods and Chemoprevention in Cancer</b> .....	<b>431</b>
<i>Edwin E. Martínez Leo, Tania V. Altamirano, Maira R. Segura Campos</i>	
1 Functional Foods and Bioactive Compounds .....	431
1.1 Bioactive Compounds With Chemopreventive Action.....	432
1.2 Compounds That Inhibit Carcinogens .....	433
2 Bioactive Compounds With Anticancer Activity .....	434
2.1 Carotenoids .....	435
2.2 Phenolics and Polyphenols.....	436
2.3 Lignans.....	441
2.4 Glucosinolates .....	442
2.5 Long-Chain Polyunsaturated Fatty Acids (PUFAs) .....	443
3 Conclusions .....	445
References.....	445
<b>Chapter 15: Epigenetic Nutraceuticals in Cancer Treatment</b> .....	<b>449</b>
<i>Gordana Supic, Katarina Zeljic, Zvonko Magic</i>	
1 Introduction .....	449
1.1 DNA Methylation.....	450
1.2 Histone Modifications .....	451
1.3 Small Noncoding RNAs.....	453
2 Diet and Transgenerational Epigenetic Changes .....	454
3 Epigenetic Nutraceuticals in Cancer Treatment .....	456
4 Essential Micronutrients–Folate, Selenium, Vitamin D .....	456
4.1 Folate.....	456
4.2 Selenium.....	459
4.3 Vitamin D.....	462
5 Flavonoids.....	465
5.1 Curcumin.....	465
5.2 Quercetin.....	467
5.3 Apigenin.....	468
5.4 Garcinol.....	469
6 Polyphenol Catechins .....	470
6.1 Epigallocatechin-3-gallate (EGCG).....	470
6.2 Resveratrol .....	471
6.3 Genistein .....	472
6.4 Sulforaphane .....	474
7 Conclusions, Future Perspectives, and Challenges.....	476
References.....	479
<b>Index</b> .....	<b>495</b>
